Re: Renewal Part 70 Operating Permit #24-005-0146

Dear Mr. Hetzel:

Enclosed please find the Title V Operating Permit and Fact Sheet for the Relay facility. The permit will expire on October 31, 2017.

The Code of Maryland Regulations (COMAR) 26.11.03.11 states the following:

If the Department denies a Part 70 permit or issues it with terms and conditions that are objectionable to the applicant, the applicant may request that a contested case hearing be held regarding the permit. This request shall be made to the Department in writing not later than 15 days after the applicant receives notice that the permit has been denied or of the objectionable terms and conditions. The request shall include the basis for the request and refer to any objectionable terms and conditions.

Please note the following revised condition in the Permit under Section II, General Conditions, Number 5, Permit Renewal:

The Permittee shall submit to the Department a completed application for renewal of this Part 70 permit at least 12 months before the expiration of the permit. Upon submitting a complete application, the Permittee may continue to operate this facility pending final action by the Department on the renewal.

If you have any questions, please feel free to call Calvin Chen, the permit manager for this facility, at (410) 537-3230.

Sincerely,

Karen G. Irons, P.E., Administrator
Air Quality Permits Program
Air & Radiation Management Administration
